

**PRESS RELEASE**  
**FOR IMMEDIATE RELEASE**

**CITY OFFICIALS ANNOUNCE UTILITY  
CUSTOMER SCAM TEXTS AND EMAILS**

**SENECA, SC December 22, 2022** – City of Seneca & Seneca Light & Water officials would like to notify Seneca Light and Water customers of yet another utility scam circulating as we approach the holiday weekend.

This most recent scam may arrive as either a text message or an email but is an attempt to harvest customer information by claiming there is a pending metering change coming and asks you to verify certain personal information to see if you are eligible for utility incentives.

Do not click on these messages and do not supply the information they are seeking. Seneca Light & Water officials want to assure you that any changes in rates are announced publicly well in advance and that they never ask customers to verify information in this manner.

If you have any questions or need help, please contact the Seneca Police Department at 864-885-2718.
