Third Party Footing/Foundation Inspection Report

City of Seneca

Planning & Development

The City of Seneca currently enforces the 2021 editions of the International Codes and the 2020 National Electrical Code. Section 109 of the International Residential Code and Section 110 of the International Building Code says that the building official is authorized to accept reports of approved inspection agencies, provided such agencies satisfy the requirements as to qualifications and reliability. To provide such reports in place of or in conjunction with required inspections this report must be approved prior to work being done. All follow up documentation should be delivered in a timely manner for permanent record with the permit and in accordance with State architectural and engineering law. This reports is not all-inclusive, and the inspector should address all pertinent code issues. Please complete the following and have signed authorization from the Building Official prior to proceeding.
